Documentary photography is a powerful tool that can be used to document the human condition, raise awareness about important issues, and promote social change. In recent years, there has been a growing interest in documentary photography from Asia and South East Asia. This is due in part to the increasing visibility of Asian and South East Asian photographers on the global stage, as well as the growing recognition of the importance of documenting the unique experiences and perspectives of people from this region.

"Documentary Photography From Asia And South East Asia: Documenting Asia By" is a new book that showcases the work of some of the most talented documentary photographers from Asia and South East Asia. The book features a wide range of images, from intimate portraits to sweeping landscapes, that capture the beauty, diversity, and complexity of this region.

The book is divided into four chapters, each of which focuses on a different theme:

- **Chapter 1: Identity** explores the ways in which people from Asia and South East Asia define themselves and their place in the world.
- **Chapter 2: Community** examines the importance of community and social networks in Asian and South East Asian societies.
- **Chapter 3: Environment** looks at the impact of environmental issues on the people and landscapes of Asia and South East Asia.
- **Chapter 4: Change** documents the rapid social and economic changes that are taking place in Asia and South East Asia.

## The Photographers

The photographers featured in "Documentary Photography From Asia And South East Asia: Documenting Asia By" are some of the most talented and respected documentary photographers in the world. They include:

- **Abbas** (Iran)
