White was also a dedicated advocate for endangered species, particularly the California condor. Through his efforts, the condor population was brought back from the brink of extinction.

### **Founding the Save the Redwoods League**

In 1918, White co-founded the Save the Redwoods League, an organization dedicated to protecting and preserving the majestic redwood

forests of California. The League's mission was to save the redwoods from the destructive logging industry that threatened their existence.
