But behind the cheerful facade, Lori Vallow was hiding a dark secret. In July of that year, her husband, Charles Vallow, was found dead in their Gilbert, Arizona home. Lori's brother, Alex Cox, claimed that Charles had attacked Lori and that he had killed him in self-defense.

The police initially believed Alex's story, but as they investigated further, they began to suspect that Lori was involved in her husband's death. In January 2020, she was arrested and charged with conspiracy to murder.

Lori's arrest sent shockwaves through the community. No one could believe that the woman they had known as the "Hiccup Girl" could be capable of such a heinous crime.

As the investigation continued, more details about Lori's life began to emerge. It was revealed that she had been involved in a number of other suspicious deaths, including the deaths of her two previous children.

In June 2021, Lori was found guilty of conspiracy to murder, first-degree murder, and solicitation to commit murder. She was sentenced to life in prison without the possibility of parole.

The Hiccup Girl is a gripping true crime story that follows the rise and fall of Lori Vallow. It is a tale of deception, murder, and the dark side of human nature.
