

The Men Who Are Destroying Life On Earth And What It Means For Our Children

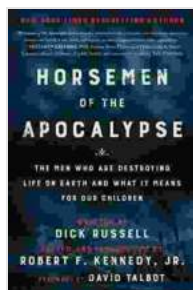

About the Author

Derrick Jensen is an author, environmental activist, and philosopher. He is the author of several books, including "The Culture of Make Believe," "A Language Older Than Words," and "Endgame." Jensen is a leading voice in the radical environmental movement, and he has been arrested multiple times for his activism.

Reviews

"Derrick Jensen is one of the most important voices in the environmental movement today. His new book is a must-read for anyone who cares about the future of our planet." - Naomi Klein, author of "The Shock Doctrine"

"Jensen's writing is both lyrical and incisive. He has a unique ability to connect the dots between the environmental crisis and the social and political problems that we face." - Bill McKibben, author of "Eaarth"

- Chapter 1: The Men Who Are Destroying Life On Earth
- Chapter 2: The Impact of Environmental Destruction on Our Children
- Chapter 3: The Need for a Fundamental Shift
- Chapter 4: Solutions
-

"The Men Who Are Destroying Life On Earth And What It Means For Our Children" is a powerful and thought-provoking book that will challenge the way you think about the environment and the future of our planet. Jensen argues that the current environmental crisis is not simply a matter of pollution and climate change, but a systemic problem that is rooted in the way that we think about and interact with the natural world. He points to the fact that the vast majority of the world's resources are controlled by a small number of wealthy individuals and corporations, who are using their power to exploit the planet for their own profit. This exploitation is taking a

devastating toll on the environment, and it is having a direct impact on the health and well-being of our children. Jensen believes that we need to take urgent action to address the environmental crisis, and he calls for a fundamental shift in the way that we think about and interact with the natural world. He argues that we need to move away from a system that is based on exploitation and domination, and towards a system that is based on cooperation and sustainability. "The Men Who Are Destroying Life On Earth And What It Means For Our Children" is a must-read for anyone who cares about the future of our planet.
