Chapter 2: Health Promotion and Maintenance

As a nurse, you play a vital role in promoting and maintaining the health of individuals and communities. This chapter focuses on health assessment, risk factor identification, disease prevention strategies, and patient education. You will learn how to empower patients to take an active role in their own health.

Chapter 3: Medication Administration

Medication administration is a critical skill for nurses. This chapter provides a comprehensive overview of medication safety, dosage calculations, routes of administration, and monitoring for adverse effects. Guided practice and simulation exercises help you develop the confidence and competence to ensure safe and effective medication administration.

Chapter 4: Wound Care and Infection Control

Wound care and infection control are essential aspects of nursing practice. This chapter covers principles of wound assessment, dressing techniques, and infection prevention measures. You will learn how to create a sterile environment, prevent the spread of microorganisms, and promote wound healing.

Chapter 5: Critical Thinking and Problem Solving

Critical thinking and problem-solving are essential skills for navigating the complex healthcare environment. This chapter develops your ability to analyze data, identify problems, and formulate evidence-based solutions. You will practice applying critical thinking to real-life nursing scenarios.

Chapter 6: Nursing Skills and Procedures

Master the essential nursing skills and procedures necessary for safe and effective patient care. This chapter covers a wide range of skills, including vital sign measurement, IV insertion, catheterization, and tracheostomy care. Step-by-step instructions and clear illustrations guide you through each procedure.

Chapter 7: Competency Evaluation and NCLEX-RN® Preparation

The final chapter is dedicated to preparing you for success in the NCLEX-RN® exam and your nursing career. You will find practice questions, case studies, and competency evaluations that assess your knowledge and skills. This chapter helps you identify areas for improvement and build confidence for the exam.
